

## proxSafe keyTag Kit

deister electronic provides high end technology for guarding, maintenance and facility management.

proxSafe is an intelligent solution for management and safeguarding of keys and valuables in secured areas.

### proxSafe keyTag Kit

The proxSafe key tag kit is the heart of the electronic key manager. It consists of three parts:

The **electronic keyTag** is designed for secure and robust placing and locking of the keys in the proxCylinder. There is a transponder chip securely casted inside the key tag. Once placed into the electro-magnetic field of a reader it transmits its unique identification without the need of own energy.

The **keyRing** secures the key or other items on the key tag. It is available in various sizes and suitable for single keys as well as large bundles.

The **one-time seal** provides a secure connection between ring and tag. It consists of two parts, which can be easily mounted without a tool. Once mounted, the seal has to be broken before the key bundle can be dismantled. For enhanced security, the one-time seal is available with an engraved unique identification number.

### Your benefits at a glance

- **Simple and fast mounted** without tools
- **Cannot be opened** without destroying the seal
- **Contactless:** no corrosion, no wear
- **Reliable identification** even after years of use
- **Light weight**
- **Comfortably rounded edges**
- **Water protected**
- **Robust** and suitable for heavy key bundles
- **Uniquely numbered seals** secure the integrity of the key bundles (option)

### Technical Data

<b>Transponder chip:</b>	125 kHz
<b>Ring diameter interior:</b>	25 mm
<b>Total length:</b>	94 mm
<b>Tag material:</b>	Polycarbonate (PC)
<b>Ring material:</b>	spring steel, Ø 2mm

### Accessories

proxSafe de-sealing tool

### Ordering Information

- 00306.000 proxSafe keyTag
- 00308.000 proxSafe one-time seal, grey, 50 pairs
- 00310.000 proxSafe one-time seal, green, 50 pairs with uniquely engraved number
- 00311.000 proxSafe de-sealing tool
- 00314.000 proxSafe key ring 25 mm, 10 pc

Key tags, rings and grey seals are supplied with all proxSafe devices.
