

Skidata AG and deister electronic GmbH signed cooperation agreement

Skidata AG, global leader in access solution and deister electronic GmbH, RFID specialist have signed a cooperation agreement. deister electronic became certified supplier for Skidata's keytag UHF- reader for car access.

„We are delighted that our relationship is strengthened. We can look into the future together and focus on marketing activities in different markets and market segments.“, states Pekka Uusi-Autti deisters AVI division manager. „Skidata as an innovative and future orientated solution provider, is the perfect partner to deister electronic.“, continues Mr. Uusi-Autti.

„deister as RFID pioneer and forerunner was the natural choice for us 2 years ago when we started looking for a competent supplier of UHF readers.“, says Mr. Dirk Fox Vice President, Product Management Car Access.

deister electronic will supply passive UHF devices and accessories to Skidatas global distribution network. deister products are used in different type of parking applications together with Skidatas hard- and software. Passive UHF-technology is rapidly taking a big market share in applications where vehicle identification is needed.
