TO WHOM IT MAY CONCERN

National Skin Centre is committed to ensure a reliable security patrolling of the Centre. It currently employs a certain number of guards who patrol the entire estate specially during the night. It is important to provide the patrolling guards with a reliable system that enables them to perform their duty and at the same time to monitor their performance.

We came to know about Deister Products and was impressed by the quality of excellence references. The good product quality, specially the contactless reading feature and the impeccable service provided by Coselect Pte Ltd, convinced National Skin Centre to purchase a PC Patrol System.

The system has been in place for more than 6 months and since then gave no reason for complain. The software proved to be user friendly and does not require special PC skills. The comprehensive evaluation reports facilitate a smooth operation and monitoring of the patrolling.

We are happy with the choice and have no hesitation to refer the system and Coselec Pte Ltd to other interested parties.

Yours sincerely

Paul Nguan
Operations Executive (Environment)
