

PRESS RELEASE

The Prestigious Jurong Island Checkpoint is equipped with the ERP-IU Vehicle Access Control Reader System provided by Coselec Pte Ltd

Coselec Pte Ltd has delivered its best solutions and expertise to successfully supply one single largest installation of 20 units of ERP-IU vehicle access control reader systems for the prestigious Jurong Island Checkpoint Contract.

Coselec had partnered with TJ Systems (S) Pte Ltd for the awarded S\$7.9 million turnkey security system contract for Jurong Island Checkpoint Security. **Coselec Pte Ltd** is a well established distributing company offering technologically advanced RF-ID and contactless security access products & logistics, is responsible for the supply of the ERP-IU vehicle access control identification systems. Both parties together with the provider of the back-end system, CEM Systems have worked very closely with one another to ensure a successful installation of a well-integrated solution of access control systems and vehicle control applications.

The Jurong Island Checkpoint is located at the entrance to Jurong Island Highway. The Checkpoint has 7 inbound car/heavy vehicle lanes, 2 inbound motorcycle lanes and 6 waiting bays for inbound buses. Another 4 car/heavy vehicle lanes, 1 motorcycle lane and 4 bus bays are also built to serve the outbound traffic. The Checkpoint is to be fully installed and equipped with state-of-the-art access control systems and ERP-IU vehicle access control identification system that allow fast clearance of vehicle and personnel without compromising security on the island.

The Jurong Island Checkpoint is part of the government's blueprint to develop Jurong Island into a world-class chemical research and production hub well served by its state-of-art and superb infrastructure and technology. By 2010, Jurong Island will be able to accommodate up to 150 companies with a total estimated fixed asset investment of S\$40 billion (US\$23 billion). In terms of employment opportunities, 15,000 people will be working on the island and more will be visiting Jurong Island for its academic researches and training.

Coselec Pte Ltd is indeed very honoured and proud to play a part in this blueprint to provide their service, expertise and products for this prestigious project.
