Coselec Pte Ltd  
89C Geylang Road  
SINGAPORE 389203

Dear Sir

- 1.) In 1992, **Singapore Technologies Aerospace Ltd** acquired a Deister Electronic Guard Tour Monitoring System. The system is used to ensure a round-the-clock Guard Patrolling of the **Singapore Aerospace buildings, in Paya Lebar, Changi & Seletar Airport** comprising more than 100 checkpoints.
- 2.) To ensure a professional security operation, we have to provide the patrolling officers with a reliable system, which at the same time allows us to monitor the guard's performance.
- 3.) Deister's Guard Patrolling System is user friendly, durable and the comprehensive evaluation reports facilitate a smooth and efficient operation. Thus Deister's system has proven to be a good choice.
- 4.) Importantly, I am impressed by the professional service offered by Coselec Pte Ltd. The entire system is being regularly serviced by an experienced Engineer and the company has never failed in providing good support and a reliable backup whenever needed.
- 5.) I am very happy with the performance and has no hesitation to refer the Deister's Electronic Guard Tour Monitoring System and Coselec Pte Ltd to other interested parties.

Yours faithfully

**LOH KWAN BOH**  
Senior Manager, Security
